One more piece of information. I am cc'ing Vince because I don't know if Norm had a chance to share this within NCEA yet.

Subject: FW: Draft Human Health Risk Assessment for Glyphosate

Good afternoon,

Attached for review are 2 documents: OPP's draft glyphosate risk assessment, and the final report of their Cancer Assessment Review Committee (CARC). Providing ORD input on this assessment is of high importance to Tom Burke, so please let me know if your lab/center will be able to accommodate this request.

Deliberative Process / Ex. 5

If possible, let me know by noon this Friday if you identify any issues with the cancer assessment and with the overall document. If you don't think you can meet this deadline, let me know asap and we will raise this up through management to request more time.

Thanks for your quick attention to this. Please call if you want to discuss.
